

...not just skates, it's fitness on wheels!

With over 30 years of experience integrating school skate programs, Skatetime® has delivered fitness through skating to promote balance, coordination, elevated motor skills, enhanced cardio wellness, and most of all...FUN!

Not a skater? Don't worry, you can coach your students just like any other sport...from the sidelines.

HOW THE PROGRAM WORKS

- You'll receive a Skatetime® "Getting Started" information pack including permission slips, curriculum, & more.
- Skatetime® delivers the equipment (quad or inline skates, safety gear) to your school in lockable storage cabinets.
- A Skatetime® representative will help you with setup and organization of the equipment. Our "Downloads" area located at skatetime.com has detailed "how to" information including games and activities.
- Once you're up and rolling, you and your students stay active for the duration of your scheduled dates.
- At completion of your program, Skatetime® will pick up the equipment and help you plan your next skating unit.

FITNESS & HEALTH BENEFITS

- Great cardio-respiratory workout (rated 18 out of 21 by the Presidents Council on Physical Fitness)
- Focus on balance, coordination and improved motor skills will help students excel in other physical activities.
- Roller-skating is coed, individualized and for all ages. You'll see your students improve quickly as they develop their skills and confidence.
- Most of all, skating is fun! Students feel less competitive pressure and can simply enjoy this form of fitness...for a lifetime.

GYM FLOORS PROTECTED

All equipment has been specifically designed to prevent damage of gym floors when used properly. Skatetime® skates are safe for virtually any surface: carpet, rubber, tartan, tile composites and wood. **Skatetime® is floor-friendly – guaranteed!**

PROGRAM COSTS & FUNDING

Skatetime® offers five-day and ten-day programs, with the total cost priced per participating student. Each program consists of either five or ten days of actual skating for each student, even if P.E. isn't scheduled each day (i.e. schools with P.E. once per week get five weeks to complete a five-day program).

The majority of schools treat their skating unit like an in-house field trip, collecting the nominal per student fee from parents. However, seeking assistance from a local PTO/PTA, rolling the costs into existing school fees, or a school paying outright for the program are other possible avenues for funding.

BONUS: Skating is provided FREE of charge to all P.E. teachers and staff.

For specific pricing contact your local Skatetime® representative.
